Facial Treatments

Enhancements

LED Lights with Oxygen

Treats: Rosacea, acne, hyperpigmentation and aging skin

Extractions with an Ultrasonic Spatula

Deep pore cleansing with an ultrasonic spatula deep cleans the skin, clearing clogged pores. Traditional extractions are also available.

Perfection Lift

A blend of exfoliating agents are combined with powerful antioxidants with correcting peptides and plant-derived stem cells. Smooths and tones the skin and is excellent for hyperpigmentation acne and aging skin.

Deep Pore Cleansing Facial

Relaxing and detoxifying facial treatment exfoliated and deep cleans dull, congested skin. Includes steam, enzymes, extractions and the sonic spatula. Results are squeaky clean skin!

VJ Peels

Improves tone, texture and clarity of the skin. Lightens age spots, freckles, melasma and sun damage. Minimizes pore size and softens lines and wrinkles. Stimulates production of collagen and elastin for firmer skin. Clears acne skin. **5-7 days aggressive peeling.** Includes Post-Treatment kit.

Pellevé Skin Tightening Treatment

Skin Type: Aging, Laxity, Fine Lines and Wrinkles
Pellevé is a device that precisely heats the deep layers of skin without damaging the epidermis, or top layer. The heat causes the collagen in your skin to contract and tighten and stimulates growth of new collagen. The result is an improvement in skin quality, firmness and tightness that you can see and feel.

Botox

Botox targets one of the underlying causes of frown lines and crow's feet (lines around the eye) which are caused by the repeated muscle contractions from frowning and squinting over the years.

Juvederm, Voluma, Volbella

Injectable fillers can give you a more youthful look with very little downtime. Fillers can "volumize" your cheeks, nasolabial folds and marionette lines. Fillers are also used for lips to add definition and volume while preserving a soft, natural feel.

Kybella

Kybella injection is the first and only FDA-approved injectable treatment that destroys fat cells and eliminates the appearance of submental fullness, sometimes referred to as "double chin".

Teen Acne Facial

Skin Type: Oily, Blackheads, Acne, Clogged Pores

Oils are removed with salicylic acid, bacteria is killed with benzoyl peroxide and dead skin cells vanish with a natural blend of enzymes. A series of three treatments are recommended 1 to 2 weeks apart for optimal results. Education on teen skincare is given during service.

Customized Facial

Skin Type: Most skin types

Tailored to address a variety of skincare needs ranging from premature aging and environmental damage, to flare-ups for special skincare needs.

Organic Passion Peptide Peel

Skin Type: Unbalanced, teens, pregnant/nursing

This organic fruit enzyme peel dramatically improves skin tone, clarity and texture for a healthy, vibrant complexion while infusing organic Japanese green tea and antioxidants for a supple hydration. The Passion Peel skin treatment is a must for the organic customer who desires skin rejuvenation organically.

Vitamin C Antioxidant Peel

Skin Type: Rosacea, dry/dehydrated, sensitive

High doses of Vitamin C and hyaluronic acid tighten, and hydrate the skin. Glycolic acid exfoliates the skin and enzymes speed up the cellular turnover to tighten and brighten.

Adult Acne Lift

Skin Type: Moderate to severe, clogged pores, oily

Salicylic acid works to slow down oil production that clogs pores. Glycolic acid exfoliates dead skin cells, increasing cellular turn over.

O2 Lift

Skin Type: Suitable for all skin types

This luxurious oxygen facial treatment infuses oxygen, plant derived stem cells, peptides and a high concentration of enzymatic botanicals into the skin, oxygenating the skin at the cellular level.
